Zu Beginn des Spiels wird ein Stein zufällig gezogen und offen in die Mitte gelegt. Die Spieler versuchen jetzt der Reihe nach, ihre Steine anzulegen. Kann jemand in seinem Zug nicht anlegen, so muss derjenige so lange aus dem Vorrat nachziehen, bis er einen passenden Stein gezogen hat. Dieser wird dann angelegt. In jedem Zug muss der Spieler einen Stein anlegen. Aussetzen ist nicht erlaubt. Die Dominosteine müssen immer direkt an einen anderen angelegt werden. Es ist nicht erlaubt, die Steine einfach irgendwo auf das Spielfeld zu legen. Es können nur Spielsteine angelegt werden, die die gleiche Augenzahl haben wie der angrenzende Stein. Der Spieler, der zuerst alle Steine abgelegt hat, hat gewonnen. Dieser Spieler erhält 5 Pluspunkte. Am Ende des Spiels erhalten die Spieler, die noch Dominosteine auf der Hand haben, Strafpunkte. Dabei werden die Augen der Spielsteine als Minuspunkte gezählt. Domino wird über mehrere Runden gespielt. Wer am Ende die wenigsten Minuspunkte hat, gewinnt.
